**OVERVIEW**
Stand Off® All Surface Cleaner is a revolutionary formula for cleaning and degreasing heavily soiled stone, tile and masonry. It is ideal for concrete and other hard surfaces stained and soiled by hard use and heavy traffic. It’s extremely dilutable for application to nearly any surface. In concentrate, it dissolves the toughest stains. All Surface Cleaner rinses quickly and efficiently with cold water, making it as easy to use as it is effective.

**SPECIFICATIONS**
For all PROSOCO product specifications visit www.prosoco.com and click on “SpecBuilder” or “Solution Finder.”

**ADVANTAGES**
- Easy to use. Powerful, economical concentrate.
- Flexible dilution with up to 10 parts water.
- Rinses fast and easy with cold water.
- Ideal for natural stone — from limestone to granite.
- Works on an enormous variety of surfaces.

**Limitation**
- Repeated use may dull polished carbonate surfaces, including but not limited to limestone, marble and travertine.

**REGULATORY COMPLIANCE**
VOC Compliance
Stand Off® All Surface Cleaner is compliant with all national, state and district VOC regulations.

| SHELF LIFE | 3 years in tightly sealed, unopened container |
STANDOFF®
All Surface Cleaner

**PREPARATION**
Protect people, vehicles, plants, nearby property and non-masonry surfaces from contact with product. Test all surfaces that may come in contact for compatibility. Grass and plantings may be protected with sprinklers.

**Surface and Air Temperatures**
Cleaning when temperatures are below freezing or will be overnight may harm masonry. Best air and surface temperatures for cleaning are 50°F (10°C) or above. If freezing conditions have existed before cleaning, let masonry thaw.

**Equipment**
Apply by spray, brush, sponge, or mop. Scrub heavily soiled surfaces with a nonabrasive brush or synthetic scrubbing pad. Rinse thoroughly with fresh water.

Rinse with enough water and pressure to flush spent cleaner and dissolved soiling from the masonry surface and surface pores without damage. Inadequate rinsing leaves residues which may stain the cleaned surface.

Masonry-washing equipment generating 400–1000 psi with a water flow rate of 6–8 gallons per minute is the best water/pressure combination for rinsing porous masonry. Use a 15–45° fan spray tip. Heated water (150–180°F; 65–82°C) may improve cleaning efficiency. Use adjustable equipment for reducing water flow-rates and rinsing pressure as needed for sensitive surfaces.

**APPLICATION**
Before use, read “Preparation” and “Safety Information.”

**ALWAYS TEST** each type of masonry surface and each type of stain for suitability, dilution and results. Use the following application instructions.

**Dilution & Mixing**
Use All Surface Cleaner in concentrate to remove heavy soiling.

When used as a general purpose cleaner and degreaser, dilute 1 part cleaner to 1–10 parts clean water.

**Storage and Handling**
Keep from freezing. Store in a cool, dry place. Always seal container when not dispensing. Do not alter or mix with other chemicals. Published shelf life assumes upright storage of factory-sealed containers in a dry place. Maintain temperatures of 45–100°F (7–38°C). Do not double stack pallets. Dispose of unused product and container in accordance with local, state and federal regulations.

**ALWAYS TEST** a small area of each surface to confirm suitability and desired results before starting overall application. Test with the same equipment, recommended surface preparation and application procedures planned for general application.

**Application Instructions**
1. Working from the bottom to the top, prewet the surface with clean water.
2. Apply the appropriately diluted All Surface Cleaner to the masonry surface using a brush or low-pressure spray.
3. Let the cleaner stay on the surface for 5–15 minutes. Gently scrub heavily soiled areas. Note: Do not let All Surface Cleaner dry on the surface. If drying occurs, lightly wet surfaces with fresh water. Reapply the cleaner scrubbing gently.
4. Working from the bottom to the top, rinse the surface thoroughly with clean water.
5. Repeat steps 1 through 4 if necessary.

**Cleanup**
Clean tools and equipment using fresh water.

SAFETY INFORMATION
Stand Off® All Surface Cleaner is a concentrated, mildly alkaline cleaner and degreaser. Use appropriate safety equipment and job site controls during application and handling. Read the full label and MSDS for precautionary instructions before use.

First Aid
Ingestion: If conscious, give large amounts of water and call a physician, emergency room or poison control center immediately. Induce vomiting with instruction by medical personnel.

Eye Contact: Rinse thoroughly for 15 minutes. Get medical assistance if irritation persists.

Skin Contact: Rinse thoroughly. Get medical attention if irritation persists.

Inhalation: Remove to fresh air. Get medical attention as necessary.

24-hour Emergency Information: INFOTRAC at 800-535-5053

WARRANTY
The information and recommendations made are based on our own research and the research of others, and are believed to be accurate. However, no guarantee of their accuracy is made because we cannot cover every possible application of our products, nor anticipate every variation encountered in masonry surfaces, job conditions and methods used. The purchasers shall make their own tests to determine the suitability of such products for a particular purpose.

PROSOCO, Inc. warrants this product to be free from defects. Where permitted by law, PROSOCO makes no other warranties with respect to this product, express or implied, including without limitation the implied warranties of merchantability or fitness for particular purpose. The purchaser shall be responsible to make his own tests to determine the suitability of this product for his particular purpose. PROSOCO’s liability shall be limited in all events to supplying sufficient product to re-treat the specific areas to which defective product has been applied. Acceptance and use of this product absolves PROSOCO from any other liability, from whatever source, including liability for incidental, consequential or resultant damages whether due to breach of warranty, negligence or strict liability. This warranty may not be modified or extended by representatives of PROSOCO, its distributors or dealers.

CUSTOMER CARE
Factory personnel are available for product, environment and job-safety assistance with no obligation. Call 800-255-4255 and ask for Customer Care - technical support.

Factory-trained representatives are established in principal cities throughout the continental United States. Call Customer Care at 800-255-4255, or visit our web site at www.prosoco.com, for the name of the Stand Off® representative in your area.

BEST PRACTICES
ALWAYS TEST for best coverage rates and to confirm results before overall application. Test using the application instructions included herein. Let the test area dry thoroughly before inspection.

Masonry-washing equipment generating 400–1000 psi with a water flow rate of 6–8 gallons per minute is the best water/pressure combination for rinsing porous masonry. Use a 15–45° fan spray tip. Heated water (150–180°F; 65–82°C) may improve cleaning efficiency. Use adjustable equipment for reducing water flow-rates and rinsing pressure as needed for sensitive surfaces.

Rinsing pressures greater than 1000 psi and fan spray tips smaller than 15° may permanently damage sensitive masonry. Water flow-rates less than 6 gallons per minute may reduce cleaning productivity and contribute to uneven cleaning results.

Do not let All Surface Cleaner dry on the surface. If drying occurs, lightly wet surfaces with fresh water. Reapply the cleaner scrubbing gently.

Repeated use may dull polished carbonate surfaces, including but not limited to limestone, marble and travertine.

Never go it alone. If you have problems or questions, contact your local PROSOCO distributor or field representative. Or call PROSOCO technical Customer Care, toll-free at 800-255-4255.
